10/24/88

Kevin-

Groden says that Lifton did in fact get the ɟx from Fox and that Livingstone could not have given them to anyone because he didn't have them.

Groden also says that those Lifton publises are not complete because he has what Lifton did not use, that Lifton has a couple he never saw, and that Fox is dead.

He also says that in printing some of these are reversed, that is, printed backward.
